Completion of St. Mina & St. Abanoub Project

Bruns General Contracting began working with the members of the St. Mina & St. Abanoub Coptic Orthodox Church 12 months ago. The goal was to build a new worship facility on the same site as their existing church. Bruns Building for Ministries assisted St. Mina & St. Abanoub Building Committee by developing architectural plans that would fit their building site, their needs and their budget. Bruns General Contracting constructed the brick multi-level facility on a hillside which accommodated all of the clients needs.

Highlights of the 12,000 square foot structure include: barrel vaulted sanctuary, translucent dome above the alter which allows sunlight to filter through, imported marble and granite flooring, marble iconostasis which immortalizes images of saints and marble baptistry area. The structure also houses a warming kitchen, classroom areas and gathering hall.

St. Mina & St. Abanoub Coptic Orthodox Church is located at 1531 King Richard Parkway in Miamisburg, Ohio.

"On behalf of St Mina and St Abanoub Coptic Orthodox Church, we would like to commend Bruns General Construction Company for the quality and workmanship they provided for our 12,000 square foot worship facility. We would also like to add that the work was completed within the allotted time frame."
