BUILDING FOR MINISTRIES

Building for Ministries Newsletter

January 2012

Abiding Christ Lutheran Church

In 2009, Bruns General Contracting was hired to build additions and complete renovations on the existing structure at Abiding Christ Lutheran Church located at 326 E. Dayton-Yellow Springs Road in Yellow Springs, Ohio. The three major areas of construction were:

- Multipurpose room
- Cafe
- Gathering area

This project consisted of 8,200 square feet of new construction and 10,300 square feet of renovations.

Abiding Christ Lutheran Church Testimonial

Our involvement with Bruns was not a straight line progression. In fact, they were the third construction company we engaged for our proposed building project in 2009. Our original building first erected in 1967, had two major expansion/additions in the previous 25 years from three different construction firms. The materials and architectural style, in particular the roof lines, were a challenge that most could not master.

The proposed project was a \$2.5 million addition/renovation project inside and out. From the very first, Bruns had an understanding of our unique challenges and delivered a quality product on time and on budget.

Today our building is nearly 25,000 square feet. You cannot tell that it was done in four major phases over 44 years. It looks and feels like a brand new facility. In addition, every detail from the movement of people, to the placement of doors, makes complete sense and has stood the test of both use and time.

Two years after completion we are completely satisfied with our building and with Bruns, their staff and their product. We have had some minor issues and Bruns has been both timely and attentive, honoring every promise they made.

Having been a pastor here for 20 years and through two major renovations, I highly recommend Bruns to anyone. They listen attentively, act decisively, and care about their customers - a class act all the way.

Rev. Craig L. Fourman, Lead Pastor
Abiding Christ Lutheran Church

Do you have a project at your church that you need help with? There is no project too large or too small for Bruns General Contracting.
