Building Standards That Set Standards

Bruns General Contracting Newsletter

June 2012

Linda Cleveland, President of Industry Products Company addresses the crowd at the ground breaking ceremony.

Industry Products Company Expands in Piqua

The ground breaking ceremony for Industry Products Company's new 123,600 square foot warehouse/storage facility addition was held May 18, 2012. Bruns General Contracting has been selected to construct the addition which will allow IPC to store product in an on-site warehouse and free up valuable manufacturing floor space.

Industry Products Company is a Tier 1 Supplier of automotive trims and trunk/cargo area liners and spare tire covers. [Click here to learn more about IPC.](#)

St. George's Breaks Ground

St. George Russian Orthodox Church broke ground for their new facility in May 2012, in Loveland, Ohio. Bruns General Contracting has been hired to construct the church.

The church will be comprised of a 3,460 square foot sanctuary with an 840 square foot choir loft which will overlook a 2 story worship space. The design also incorporates a 3,340 square foot fellowship hall that connects to the church.

Steve Bruns - President of Bruns General Contracting (left) & Mike Caughell - Executive Vice President of Bruns General Contracting (right) accept sales awards from Greg Albers of Nucor Building Systems.

Bruns General Contracting Receives Awards

Bruns General Contracting recently received 2 awards from Nucor Building Systems for outstanding sales achievement by Builders. The first award was presented to Bruns for selling over \$1.0 million in Nucor steel building products in 2011. The second award was presented to Bruns for achieving over \$5.0 million in cumulative sales for Nucor steel building products in the last few years. These awards are only presented to the Builders with the highest sales and usage in the United States. For more information on Nucor Building Systems [click here](#)
